**Additional comments:**

**Question 1: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would unacceptably narrow the range of DAB programme services available in the Exeter and Torbay area? Please explain the reasons for your view.:**

No

**Question 2: Do you think that allowing Now Digital to extend the coverage area of its Exeter & Torbay local radio multiplex licence to include North Devon would be calculated to maintain or promote the development of digital sound broadcasting in the UK otherwise than by satellite? Please explain the reasons for your view.:**

No view about this.

**Question 3: Do you think that Now Digital's proposals for providing coverage of North Devon are satisfactory? Please explain the reasons for your view.:**

No

I believe that, after looking at the plans, when FM is turned off, it is very likely that North Devon will NOT get a good DAB signal.

**Question 4: Do you consider that Now Digital has the ability to maintain its local radio multiplex service if its request is granted? Please explain the reasons for your view.:**

No view on this.

**Question 5: (For programme service providers on the Exeter & Torbay local radio multiplex only) Do you consider that there are sufficient safeguards in place to protect your rights and interests in the event that Now Digital is permitted to extend coverage to include North Devon?:**

n/A

**Question 6: Do you consider that there any other grounds on which Ofcom should approve, or not approve, the request from Now Digital? Please explain the reasons for your view.:**

No it should not be approved.

I believe it would give Heart get an automatic right to carry on broadcasting in North Devon without any guarantees that they will actually do so!

They have simply "Promised" " that they will provide a digital signal at some point the future.

Heart is not local and therefore not relevant to people and business in North Devon.

It is clear that Exeter and Plymouth is the main focus for Heart and that it will never be cost effective for them to operate a truly local station.

The FM licence should be readvertised and Local Radio given a chance to be bought back to North Devon - bringing back the true spirit of the community and keeping people properly informed about our unique area
