Question 1: Do you agree with our revised geographic market definition? If not, please explain why?:

Generally we are in agreement with the proposals and we consider that a more realistic analysis of Market 2 has been undertaken.

Question 2: In light of the revised geographic market definition presented in this consultation, do your previous comments on SMP remain appropriate? If not, please explain why?:

Generally we consider that our comments are still valid though we note that a more sensitive analysis of Market 2 has been undertaken.

Question 3: Do you have any further comments to add in relation to the SMP assessment?:

We consider that this SMP assessment is more appropriate than that used in the previous consultation. However we consider that critical factors should have been identified where any change could have a significant impact on the outcome of the assessment.

We have no further comments

Question 6: Do you have any further comments to add in relation to the period of notice that should apply to exchanges that move from Market 2 to Market 3?:

We have no further comments.
