What do you want Ofcom to keep confidential?

Keep nothing confidential

Additional comments:

One day in which to comment is outrageous!

Question 1: Are there any reasonable grounds why Ofcom should not grant the request to vary the five Wireless Telegraphy Third Generation Mobile Licences by increasing the permitted maximum in-band EIRP to 68dBm as soon as practicable? If so, please explain your reasoning for this:

It should not be granted as we know it will effect the bees, needed to pollinate our crops.

Question 2: Are there any reasonable grounds why Ofcom should not also apply the increased permitted maximum in-band EIRP to future 2 GHz MSS/CGC licences? If so, please explain your reasoning for this:

It should not be granted as we know it will effect the bees, needed to pollinate our crops.
