

Title:

Mr

Forename:

David

Surname:

McQueen

Representing:

Self

What do you want Ofcom to keep confidential?

Keep nothing confidential

Question 1: Are there any reasonable grounds why Ofcom should not grant the request to vary the five Wireless Telegraphy Third Generation Mobile Licences by increasing the permitted maximum in-band EIRP to 68dBm as soon as practicable? If so, please explain your reasoning for this:

Yes, on health grounds - trebling limit poses additional threat to human health.

Question 2: Are there any reasonable grounds why Ofcom should not also apply the increased permitted maximum in-band EIRP to future 2 GHz MSS/CGC licences? If so, please explain your reasoning for this:

Yes, see above. Studies have indicated increased risk to health from microwave radiation of this kind. Further research is needed before going ahead with increases.
