

Title:

Mrs

Forename:

Catherine

Surname:

Botting

Representing:

Self

What do you want Ofcom to keep confidential?

Keep nothing confidential

Question 1: Are there any reasonable grounds why Ofcom should not grant the request to vary the five Wireless Telegraphy Third Generation Mobile Licences by increasing the permitted maximum in-band EIRP to 68dBm as soon as practicable? If so, please explain your reasoning for this:

There is still no robust research to understand the effects on health. Until this is established the precautionary principles advocated by the Stewart Report should be acted on. Many of these masts are sited near schools. Common sense needs to prevail in this matter not greed.

Question 2: Are there any reasonable grounds why Ofcom should not also apply the increased permitted maximum in-band EIRP to future 2 GHz MSS/CGC licences? If so, please explain your reasoning for this:

Ofcom should not be putting commercial needs over health and safety issues.
