

**Title:**

Ms

**Forename:**

Alice

**Surname:**

Thornton

**Representing:**

Self

**Question 1: Are there any reasonable grounds why Ofcom should not grant the request to vary the five Wireless Telegraphy Third Generation Mobile Licences by increasing the permitted maximum in-band EIRP to 68dBm as soon as practicable? If so, please explain your reasoning for this:**

There are 1000's of studies (and this number is ever increasing) pointing to harm from microwave exposure below the UK exposure guidelines. This proposed increase will only make matters much worse. The UK Population will be subjected to significantly more damaging microwave radiation ? at a time when some other countries are reducing their exposure limits.

**Question 2: Are there any reasonable grounds why Ofcom should not also apply the increased permitted maximum in-band EIRP to future 2 GHz MSS/CGC licences? If so, please explain your reasoning for this:**
