

## **Representing:**

Self

## **What do you want Ofcom to keep confidential?**

Keep name confidential

### **Question 1: Are there any reasonable grounds why Ofcom should not grant the request to vary the five Wireless Telegraphy Third Generation Mobile Licences by increasing the permitted maximum in-band EIRP to 68dBm as soon as practicable? If so, please explain your reasoning for this:**

It is scandalous to quote that there is "no evidence" that increasingly powerful masts cause harm to humans.

We want evidence that it does not !!

Princess Royal University Hospital, Farnborough, Kent - masts now removed - but 5 households closest to masts each with separate cases of cancer would like evidence !

### **Question 2: Are there any reasonable grounds why Ofcom should not also apply the increased permitted maximum in-band EIRP to future 2 GHz MSS/CGC licences? If so, please explain your reasoning for this:**

It is scandalous to quote that there is "no evidence" that increasingly powerful masts cause harm to humans.

We want evidence that it does not !!
