Dear Michael,

Applying spectrum pricing to the Aeronautical sector – a second consultation

I am writing to inform you of DHL's views as regards Ofcom's second consultation on the proposals to introduce spectrum pricing.

You have probably already received the attached document from the Association of European Airlines (AEA), which outlines the group's views on Ofcom's proposal to apply Administered Incentive Pricing (AIP) to aeronautical VHF frequencies. As a member of this forum we share the various concerns outlined, and fully support the position presented by the Association in their response.

Yours sincerely,

Mike Tamlin
Corporate Affairs Manager
