

Dear Ofcom,

I am extremely upset that Durham FM is apparently going to relocate to Sunderland. It is an excellent station that serves our area well and because it is based in our county town it is central to everything going on in County Durham. Sunderland is in Tyne and Wear, a huge leap from the rural areas of our beautiful county. The reporters and presenters seem to get out and about to truly represent what the people want, and by being in Sunderland, they would not so easily be able to physically reach their audience. I have seen the staff at several events around Durham and I feel sure that this is what the people want. Let us keep our own Durham radio station, not a Tyne and Wear watered down affair. I am proud to be a County Durham citizen.

Yours faithfully,

A handwritten signature in cursive script that reads "Dorothy Hudson". The signature is written in black ink and is positioned above a horizontal line that extends to the right.
