

**Question 1: Do you agree with Ofcom's proposal to exempt users of Citizen's Band (CB) radio (and other related applications such as Community Audio Distribution) from the need to possess a Wireless Telegraphy Licence.:**

**Question 2: Do you agree with Ofcom's proposals to permit the use of 'Micro' FM transmitters in the UK, and to authorise that use by licence exemption.:** Yes it is an excellent idea to allow the use of iTrips in the UK. With such a short range it seems incredible that currently it is classed as obstructing access to spectrum licence holders favoured frequencies. I have experience of an iTrip in Canada where you find if you use an iTrip commercial radio stations will 'drown it out' if you set it at the same frequency. To say it is an obstruction is a nonsense.
