

**Question 1: Do you agree with Ofcom's proposal to exempt users of Citizen's Band (CB) radio (and other related applications such as Community Audio Distribution) from the need to possess a Wireless Telegraphy Licence.:**

**Question 2: Do you agree with Ofcom's proposals to permit the use of 'Micro' FM transmitters in the UK, and to authorise that use by licence exemption.:** I do agree with ofcom's proposals to permit the use of low power fm transmitters in the uk. I would ask that enough power is allowed to give coverage within the average home. I would also ask that no restriction be made as to what fm frequency can be used, by this i mean that digital tuning and selection over 88/108 Mhz be allowed. This would mean that a clear channel can be selected at any given location. Users would be expected to use common sense with regard to this and not try to transmit over the local station at home to try and entertain/annoy the neighbours.
