

Colin Beynon GW3WSU

Question 1

*Do stakeholders agree with the proposals for the award of licences in the 10GHz, 28GHz and 32GHz bands in 2007?*

Answer 1: No

Question 2

*Do stakeholders agree with the proposal to include in the award of the 32GHz band that portion of the band that has been open since 2003 for point-to-point applications?*

Answer 2: Yes

Question 3

*Do stakeholders agree with the proposal to defer the release of the 40GHz band and review the position in two years' time?*

Answer 3: Yes

Question 4

*Do stakeholders have any other comments on the contents of this document?*

Answer 4: Due to very low signal strengths being received, any high power signals near to the channels being used for space communication would be obliterated. There are plans underway to position Amateur Radio Satellites in orbit around Mars in the future. The link back to Earth would be on the 10GHz Band!
