Dear Sirs,

**Re: Commercial multi-user gateway review**

After considering all of the invited evidence provided during the consultancy period, Ofcom recently announced that it will make regulations allowing the use of COMUGs on a licence exempt basis. Since the contents of your notice and statement paper dated 6th July 2017 confirms to the position my Floe Telecom colleagues and I we have maintained since 2003, we are very pleased to support Ofcom's decision.

Yours faithfully,

✂
