

Chris Cope

I wish to express my thoughts on the BBC's plans to expand radio 2's output, I feel this is an unfair move as far as the commercial radio industry is concerned.

Ten years ago, I would have said the Gold/Oldies part of the market was not that well served, but now I think it is well served, and I feel the move by the BBC is to push their way into this market for fear of losing audiences in this area should not be allowed therefore i would like Ofcom to stop this move by the BBC
