Made Outside London programme titles register: 2022	9

Overview

This document sets out the titles of programmes that the BBC, ITV, Channel 4 and Channel 5 reported as 'Made Outside London' productions broadcast during 2022. For each entry in the programme title register, the following is listed:

- The nation or region outside of the M25 in which the production qualified as being made.
- The criteria which the production met to qualify as a regional production, and the nation or region in which each criterion was met.
- The production company which produced the title, where the production was made by an external production company. Where this column is blank, the content was made in-house by the broadcaster.
- The number of episodes of each title that qualified as regional.

The Made Outside London programme titles register, and further information about the public service broadcasters' delivery against their regional production quotas, are also available as interactive data in our [PSB Annual Compliance Report](#). The interactive version enables users to explore trend data, and filter productions by which Made Outside London criteria they have met.

More information about [regional production and programming](#) is available on the Ofcom website.

Revisions as of March 2025

The 2022 register has been updated to reflect the findings from Ofcom's ongoing monitoring of broadcaster Made Outside London returns, as follows:

- Corrections applied to ITV's regional production figures for 2020-2022 following the discovery of an error in ITV's reporting. As a result, ITV's total regional production figures for hours and spend decreased slightly in each of these years. Total spend decreased by 0.5 ppts to 47.0% in 2020, 59.5% in 2021, and 50.7% in 2022. Total hours decreased from 47.1% to 45.7% in 2020, 49.8% to 47.5% in 2021, and 48.6% to 46.6% in 2022.

ITV continues to meet its 2020-2022 Regional Production quota obligations in full.

Revisions as of December 2024

The 2022 register has been updated to reflect the findings from Ofcom's ongoing monitoring of broadcaster Made Outside London returns, as follows:

- Following spot checks, two BBC titles and one Channel 5 title were found to have contained reporting errors, and one BBC title returned updated information. These are denoted with an * and the details have been corrected/updated here. As a result, the overall allocation for one BBC title changed from **Multi-English region** to **Southern England**, but this had no material impact on the BBC's overall regional spend or hours. All four programmes continue

Made Outside London programme title register 2022

to qualify as Made Outside London productions and count towards the broadcasters' quotas.

Both the BBC and Channel 5 continue to meet their 2022 Regional Production quota obligations in full.

Regional production requirements

The Communications Act 2003 (Sections 286 and 288) and the BBC Agreement require that a suitable proportion of programmes are made outside the M25. Each public service broadcaster (“PSB”) must meet the quotas for regional productions specified in its licence. Ofcom’s [guidance](#) explains that only first-run programmes that qualify as regional productions may count towards these quotas.

The current quotas are set at the following levels for the PSBs:

Regional production quotas	BBC	Channel 3 services (ITV)	Channel 4	Channel 5
Proportion & range of programmes by spend and hours made outside M25	50%	35%	35%	10%
Out of England (nations) spend/hours	8% spend/hours in Scotland 5% spend/hours in Wales 3% spend/hours in Northern Ireland	n/a	9% spend out of England 9% hours out of England	n/a
English regional spend/hours	30% spend/hours in English regions	n/a	n/a	n/a

To qualify as a regional production, at least two of the following three criteria must be met:

- The production company must have a substantive business and production base in the UK outside the M25¹;
- At least 70% of the production budget (excluding some specific costs²) must be spent in the UK outside the M25; and
- At least 50% of the production talent by cost must have their usual place of employment in the UK outside the M25.

Each regional production must be assigned to either Scotland, Wales, Northern Ireland, one of three English macro-regions, or be labelled as ‘Other’ if the substantive base criteria is not met, and the

¹ A base will be taken to be substantive if it is the usual place of employment of executives managing the regional business, of senior personnel involved in the production in question, and of senior personnel involved in seeking programme commissions.

² On-screen talent, archive material, sports rights, competition prize-money and copyright costs.

production budget and production talent criteria were achieved, but were not met in a single macro-region.

Further detail on the [current regional production definitions](#) is available on our website.

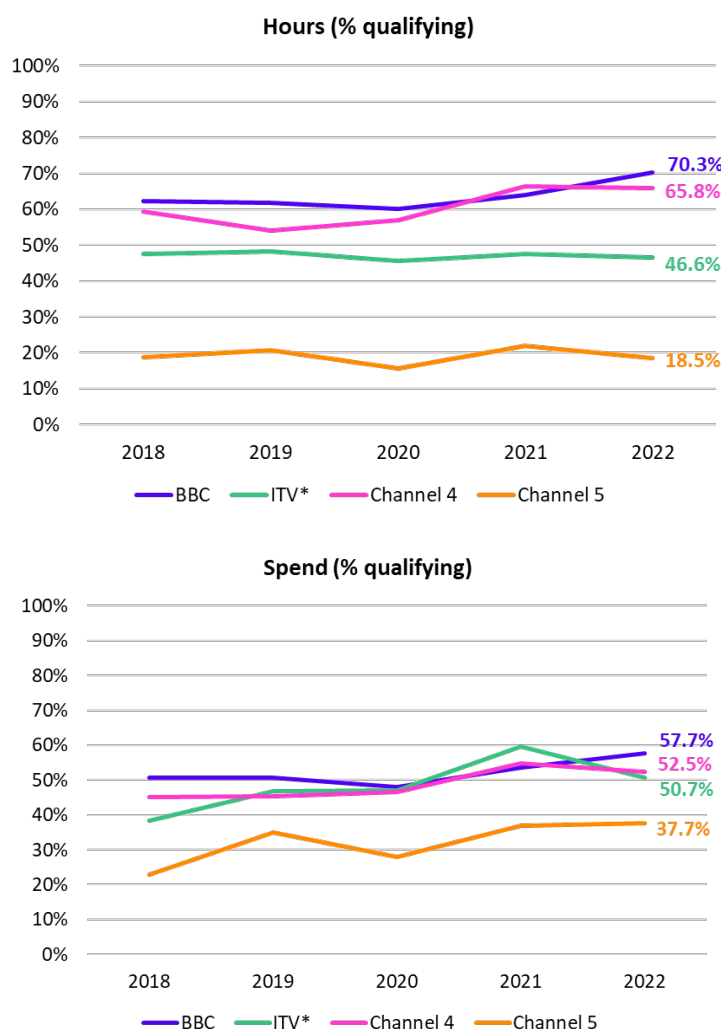

Ofcom reviewed the regional production and regional programming guidance for broadcasters. In June 2019, we published [updated guidance](#) for the PSBs; this came into effect for programmes broadcast from January 2021. We also published a [statement](#) concluding Ofcom's review of the guidance.

Regional production in 2022: at a glance

The Made Outside London programme titles register sets out the titles of programmes broadcast during 2022 that the BBC, ITV, Channel 4 and Channel 5 reported as ‘Made Outside London’ productions. The qualifying hours and spend of these titles contribute to the regional production quota outturn we set out below and in our [PSB Annual Compliance Reports](#).

PSBs’ performance against regional production quotas in 2022

All of the PSBs exceeded their overall regional production quotas in 2022. Each individual broadcaster’s performance is shown below. The BBC has to meet a quota of 50% for hours and spend, ITV and Channel 4 have quotas of 35% for both, and Channel 5 has a quota of 10% for hours and spend.

Revisions: *Corrections applied to ITV's regional production figures for 2020-2022 following the discovery of an error in ITV's reporting. As a result, ITV's total regional production figures for hours and spend decreased slightly in each of these years. Total spend decreased by 0.5 pts to 47.0% in 2020, 59.5% in 2021, and 50.7% in 2022. Total hours decreased from 47.1% to 45.7% in 2020, 49.8% to 47.5% in 2021, and 48.6% to 46.6% in 2022.

The BBC and Channel 4 also met or exceeded their Nations specific quotas. The BBC allocated 46.5% of hours and 38% of spend to English regions (quota: 30%), 14.3% of hours and 8.4% of spend to Scotland (quota: 8%), 3.0% of hours and 3.9% of spend to Northern Ireland (quota: 3%), and 5.8% of hours and 5.4% of spend to Wales (quota: 5%). Channel 4 allocated 9.1% of hours and 9.7% of spend to out of England productions (quota: 9%).³

Made Outside London title allocations

There were 812 separate entries in the Made Outside London programme titles register in 2022. Of these, 67% (543) were allocated overall to English regions outside London, 15% (117) to Scotland, 9% (72) to Wales, and 7% (53) to Northern Ireland. A further 3% (26) entries were for programmes made across multiple nations or regions and therefore designated as ‘Other’.

Made Outside London programme titles register: 2022

Programme titles are listed in alphabetical order, by broadcaster. Please note that 'Other' indicates criteria that was met, but not in a single nation or region. Blank entries under individual criterion mean that the criterion was not met. Blank entries under production company indicate that the title was produced in-house.
